

# 3D Ring

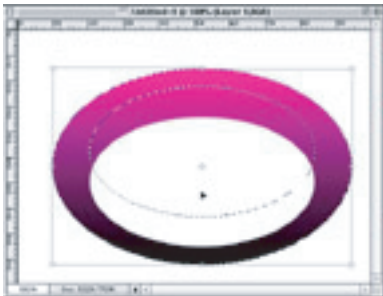

Open a new document and create a new layer. Then using the circular marquee tool make a selection similar to this.

Hold down the option key and make another oval selection similar to this.  
Note: Holding down the space bar allow you to position the selection where ever you like.

Select the gradient tool , foreground to back ground, making the foreground color your color of choice and the background color black

Go to select >transform selection and rotate your **selection** 180 degrees.

**This time draw your gradient from bottom to top and deselect**

ADDED BONUS  
SEE IF YOU ARE ABLE TO MAKE  
A SERIES OF INTERLOCKING  
RINGS.  
HINT\* YOU MAY NEED THE ERASER  
TOOL OR THE MASK TECHNIQUE  
TO COMPLETE THIS PROCEDURE.
